Damage Resistances bludgeoning, piercing, and slashing from nonmagical attacks

Condition Immunities blinded, charmed, deafened, exhaustion, frightened, prone

Senses blindsight 60 ft. (blind beyond this radius), passive Perception 9

Languages —

Challenge 10 (5,900 XP)

Amorphous. The king slime can move through a space as narrow as 1 foot wide without squeezing.

Corrosive Body. A creature that touches the king slime or hits it with a melee attack while within 5 feet of it takes 9 (2d8) acid damage.

False Appearance. While the king slime remains motionless, it is indistinguishable from a large viscous pool of liquid.

Legendary Resistance (3/Day). If the king slime fails a saving throw, it can choose to succeed instead.

Slime Spawn (1/Day). When the king slime is reduced to 84 or fewer hit points for the first time, it immediately spawns two **slime princes** (use the stat block of an ochre jelly) in unoccupied spaces within 10 feet of it. The slime princes act on the king slime's initiative count.

Spider Climb. The king slime can climb difficult surfaces, including upside down on ceilings, without needing to make an ability check.

ACTIONS

Multiattack. The king slime makes two pseudopod attacks. It can replace one of those attacks with Engulf.

Pseudopod. *Melee Weapon Attack:* +10 to hit, reach 10 ft., one target. *Hit:* 15 (2d8 + 6) bludgeoning damage plus 9 (2d8) acid damage.

Engulf. The king slime moves up to its speed. While doing so, it can enter Large or smaller creatures' spaces. Whenever the king slime enters a creature's space, the creature must make a DC 16 Dexterity saving throw. On a failed save, the creature is engulfed. The engulfed creature can't breathe, is restrained, and takes 21 (6d6) acid damage at the start of each of the king slime's turns. When the king slime moves, the engulfed creature moves with it. An

engulfed creature can try to escape by taking an action to make a DC 18 Strength check. On a success, the creature escapes and enters a space of its choice within 5 feet of the king slime.

Acidic Eruption (Recharge 5–6). The king slime violently expels caustic fluid in all directions. Each creature within 15 feet of the king slime must make a DC 16 Constitution saving throw, taking 35 (10d6) acid damage on a failed save, or half as much damage on a successful one. The ground in that area becomes difficult terrain until the end of the king slime's next turn as the acid pools and smolders.

LEGENDARY ACTIONS

The king slime can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The king slime regains spent legendary actions at the start of its turn.

Creep. The king slime moves up to half its speed without provoking opportunity attacks.

Pseudopod Strike (Costs 2 Actions). The king slime makes one pseudopod attack.

Corrosive Surge (Costs 3 Actions). The king slime releases a pulse of concentrated acid from its core. Each creature engulfed by the king slime automatically takes 28 (8d6) acid damage. Each creature within 5 feet of the king slime that is not engulfed must succeed on a DC 16 Constitution saving throw or take 14 (4d6) acid damage.
